

# NTNU NanoLab Seminarseries; Autumn 2011

**Time:** Tuesdays at 12.15 - 12.45

**Place:** NTNU NanoLab's meeting area in the building connecting  
Chemistry Buildings 1 and 2.

## Programme:

**04.10** *Scanning Electrochemical Microscopy in NanoLab's  
cleanroom*

Øyvind Mikkelsen

**18.10** *Increasing light harvesting by using Algae in Solar Cells? -  
The Solbiopta project*

Gabriella Tranell

**25.10** *Nanomaterials for Energy Storage*

De Chen

**01.11** *Nanomechanical Technology*

Zhiliang Zhang

**08.11** *MBE growth and processing of mid-IR diode lasers*

Magnus Breivik

15.11

22.11

**Please bring your own lunch. NTNU NanoLab will provide  
coffee / tea and muffins from 12.00.**

## All are welcome!
