Participation is free and includes lunch and coffee/tea. Registration is required by **12th November**:
sarah.by@ntnu.no

We are proud to present our keynote speaker:

Ray Land, Professor of Higher Education at Durham University and Director of Durham's Centre for Academic Practice. He previously held similar positions at the Universities of Strathclyde, Coventry and Edinburgh. He has been a higher education consultant for the OECD and the European Commission and has recently been involved in two European Commission higher education projects in Europe and Latin America. He has published widely in the field of educational research, including works on educational development, learning technology and quality enhancement. He is best known for his theory (with Jan Meyer) of Threshold Concepts and Troublesome Knowledge. His latest book (with George Gordon) is *Enhancing Quality in Higher Education: International Perspectives* (Routledge 2013). Ray Land is both a member of AB Faculty's Master program evaluation committee at and TRANSark's international scientific committee in the SFU-process.
