

Dear CMIC Confocal and Fluorescence users,

You will now have access to a new storage location at CMIC Konfokal (Q:). This storage area is ONLY FOR IMAGES and microscopy DATA. Please create your own directory.

In case the location does not show up, you can manually add it by right-click on 'Computer', 'Map network drive', Choose Drive: Q

Write the address in the Folder line: \\medisin.ntnu.no\common\CMIC_Konfokal

Best regards, Kjartan and Dionne.
