

Greetings to the new “Bergmann” or “Bergquinde”!

Welcome to Trondheim! As a new student, you will be taking part of the student association, Bergstuderendes forening. Also, welcome to the best years of your life!

You are lucky join us in the best student city of Norway. It's really fun to be a new student, but in the beginning, it can be little scary and confusing. There is a number of things to attend and a lot of new info to process.

This informative text will hopefully make you more prepared for the beginning of a new semester. You who are admitted to Material Sciences and Engineering will automatically become a member of Bergstudentenes forening. This is one of many student organisations at NTNU. You may now wonder what a student organisation is. Well, it is the social arena you will encounter, as we are the ones who arrange fadderukene. Furthermore, there will be several events throughout the year, such as Berserennet, CCC, Solanturen and Immeball! As a student of Material Sciences and Engineering, you will automatically become a member of the daughter-organisation of Bergstudentenes Forening, called De Høylegerte.

For hygienic reasons, we all ask to address the infection control rules and make sure to keep 1-meter distance at all times to each other. Take responsibility for avoiding the spread of infection. Be careful about hand and cough hygiene. If you are a patient facing higher risks than others, you will unfortunately not be able to attend the events that will take place next week. But don't worry, an alternative plan is set. If you are in the risk group for COVID-19, contact faddersjefen so you can be updated with important information and at the same time have two weeks of fun with us in Bergstudentes Forening.

We are sorry for those who are not allowed to arrive in Trondheim this semester, but we are looking forward to welcome you in January 2021.

Feel free to visit our website bergstud.no to read more and see pictures of what we do together in Berg. You can also find other useful information here.

Tip for you as a new student:

Get information – There is a lot of information online; on NTNU's website and on *bergstud.no*. Here you will find out more about what happens in the first few days, the sponsorship program and about Teknologistart. Berg also has their Facebook-page that you may like.

Corona – Use the Corona-phone in Trondheim if you have any questions about the new Coronavirus: [+47 815 55 015](tel:+4781555015)

Download MazeMap – MazeMap is an app of a map that helps you find your way around campus.

Check out «kom-i-gang-dagen» - Tuesday August 11th will “kom-i-gang-dagen” take place, which this year will be digital. On this day there will be posted many different videos on our website by many of our associations that will be relevant for you as a student.

Join as much as you can! – Last, but not least, join as much as you can. A simple way to be a part of the social network is to join the student community from the beginning. This will ensure a good and exciting study time. Attend the schedule that has been set up by a fadderkomité. This is a unique opportunity to get to know your fellow students off the bench.

Send me, faddersjefen, an e-mail or call if you have any questions.

Rajetha Sutha

Faddersjef

E-mail: vise-fest@bergstud.no
