# Health Promotion Research An International Forum

## NEXT SOCIETY

**28–30 September 2016**  
**Trondheim Norway**

**27 September**

Pre-conference/PhD-course:

«Issues in Health Promotion Research»

The objective of the 3rd International Forum in Health Promotion Research is to enable researchers, practitioners and policy makers to share, discuss and develop health promotion research to future health under the label "NEXT SOCIETY". The forum will be a joint event with the Global Working Group on Salutogenesis.

The Forum will partly be arranged in parallel sessions of: Health Promoting Architecture in Hospitals, Health Promoting Work Environment in Hospitals and Health Promoting Hospitals – Impact on Patients' Well-Being.

The second day will be dedicated to Health Promoting Schools, Health Promoting Community Based Rehabilitation and Health Promoting Nursing Homes.

The detailed program and instructions for registration are displayed at:

<http://www.ntnu.edu/healthforum>

The Forum will be hosted by the Center for Health Promotion Research
