Call for papers for

The Fourth European Workshop on Practical Aspects of Health Informatics

PAHI 2017

eHealth communication and the citizen - social, organizational and human aspects

Levanger in Trøndelag, Norway May 15-16th 2017

PAHI 2017 aims to bring together clinicians, researchers and students from humanities, social sciences, healthcare and informatics as well as developers to exchange experiences and ideas about eHealth communication in modern healthcare. The objective of the workshop is to examine human, organisational and social prerequisites for effective and target-oriented eHealth communication between the health authorities, health services and the citizens.

Important Dates

- February 1, 2017 – Abstract submission
- February 10 – Notification of acceptance
- March 1 – Full paper and short paper submission
- April 20 – Notification of paper acceptance
- April 25 – Final registration date

PAHI 2017 is hosted by NORD University in Levanger, Norway and organized in collaboration with:

- NTNU The Norwegian University of Science and Technology
- Moray College UHI University of Highlands and Islands and Glasgow School of Arts, Scotland
- Flensburg University of Applied Sciences, Germany, and
