NTNU Digital – focus-areas for generic ICT

DIGITAL TRANSFORMATION

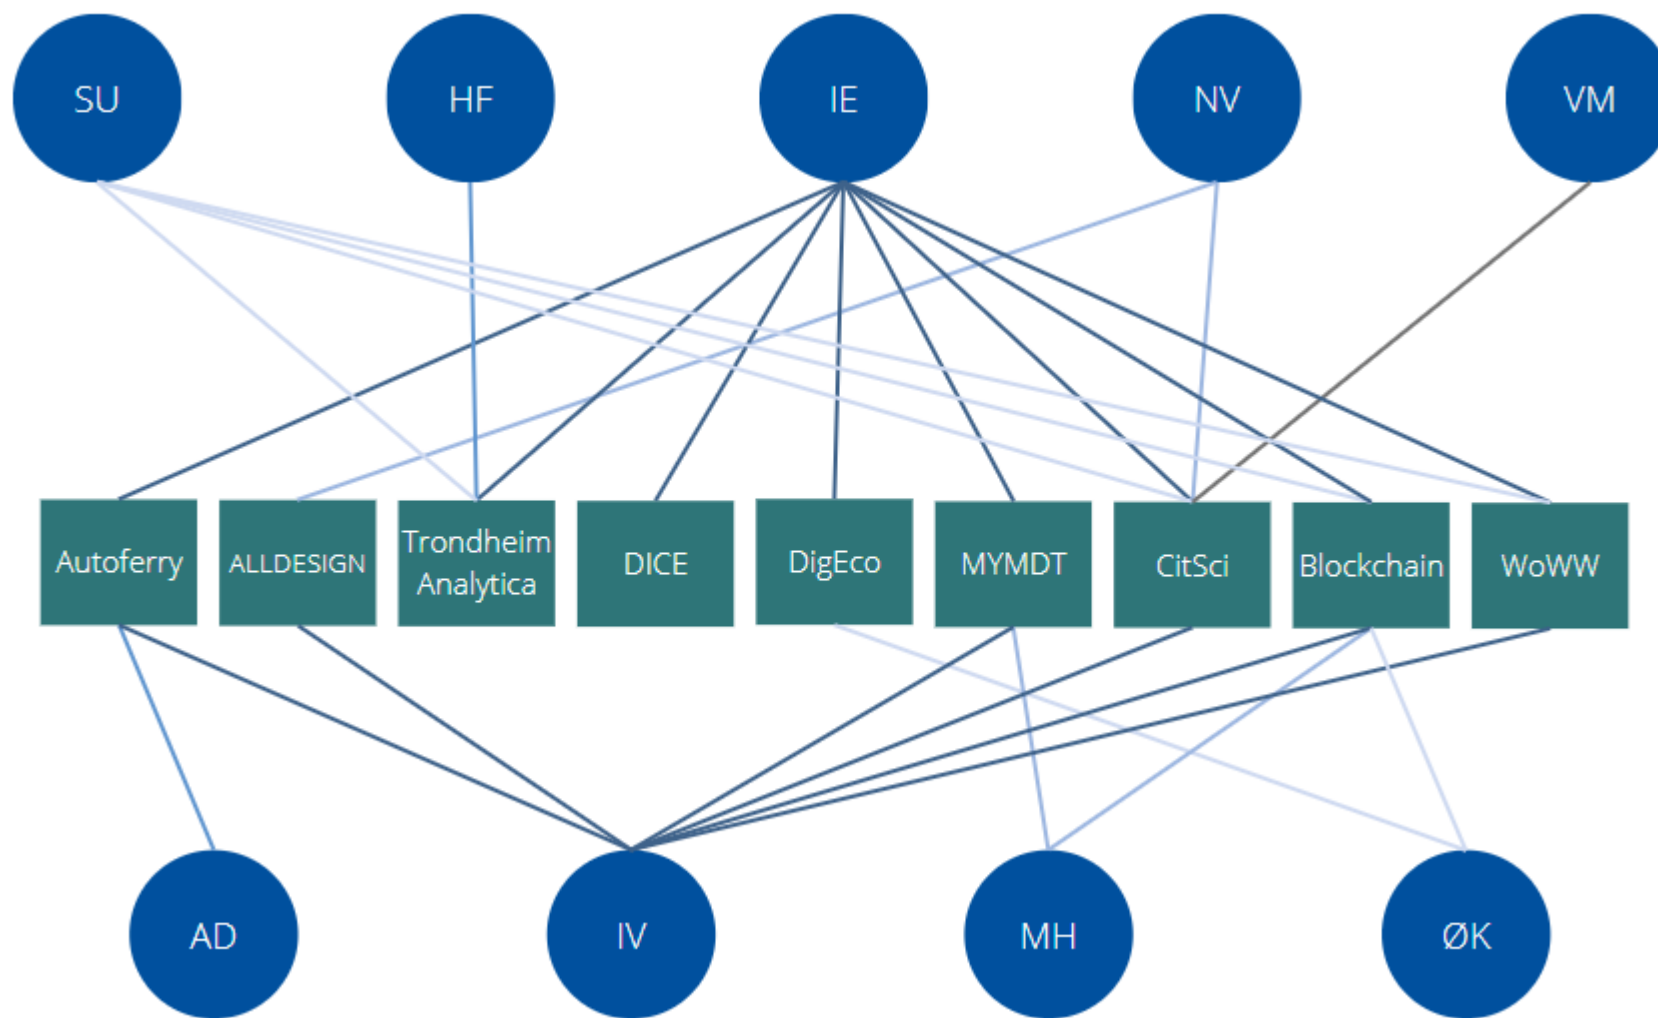

9 projects – 48 PhD positions

NTNU's call for project proposals resulted in 89 applications.

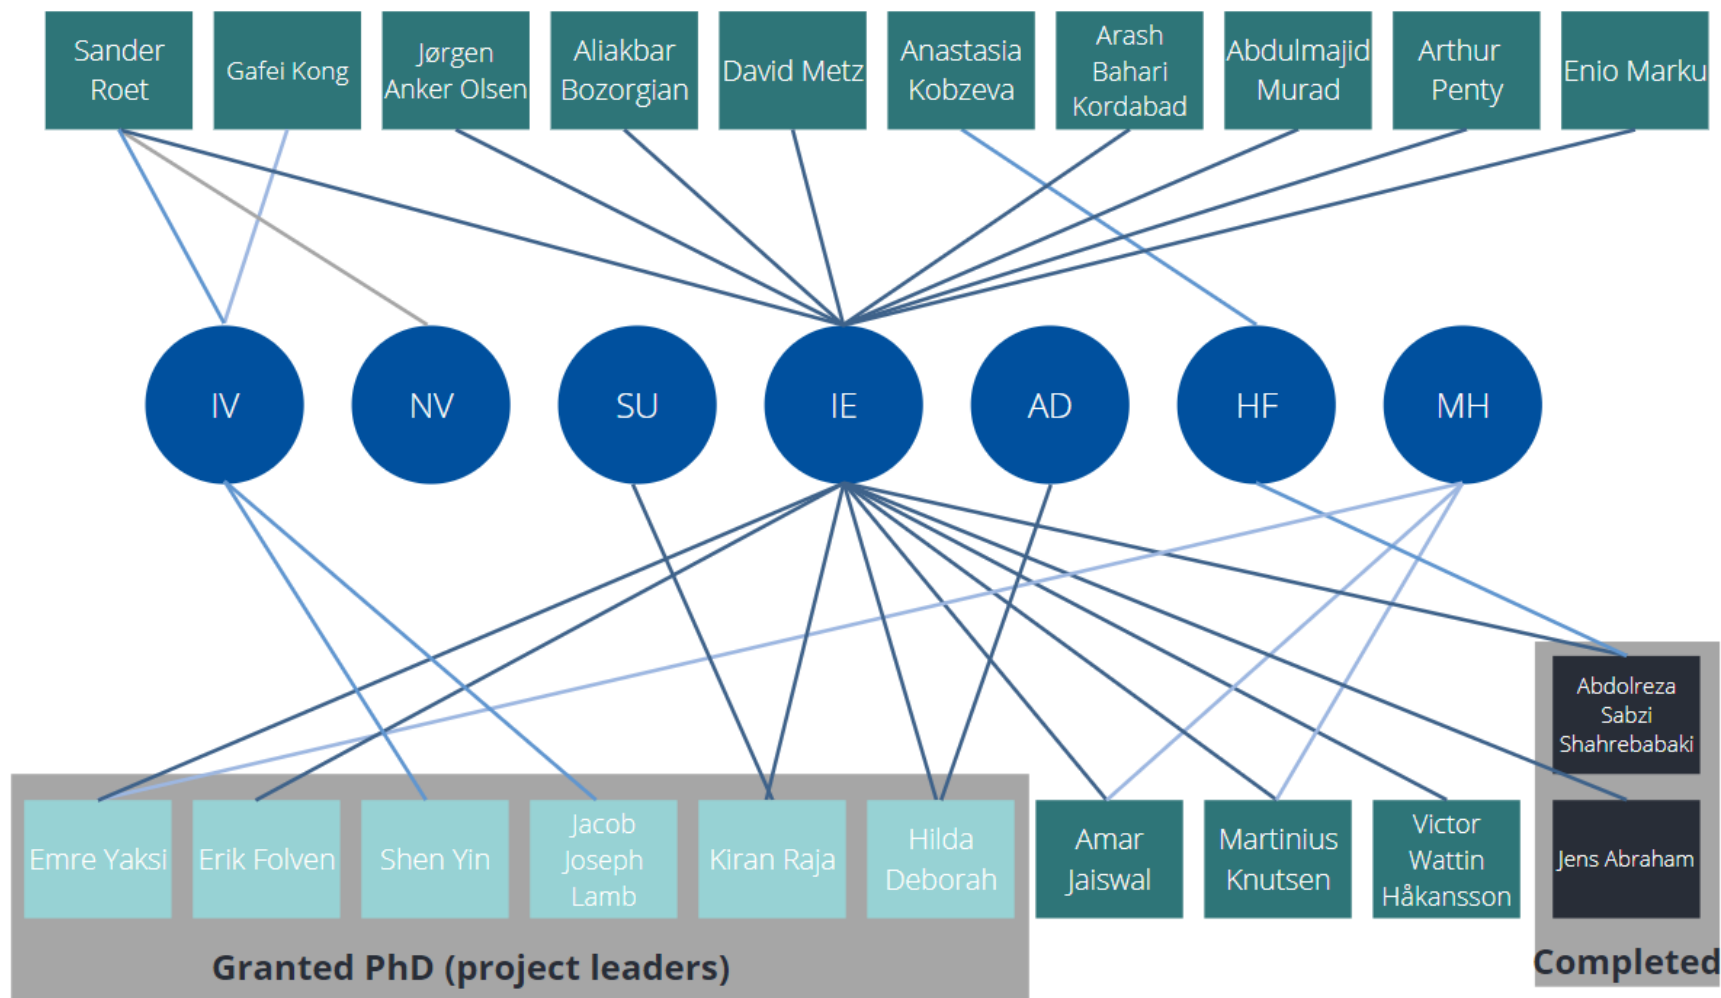

9 of the applications were granted funding.

Samarbeid på tvers av fakultetene blant digital transformasjons (DT) – prosjektene

Samarbeid på tvers av fakultetene blant enabling technology (ET) – stipendiatene

Variety of project funding

- NTNU internal : NN kroner
 - Around 20 PhDs funded, last this spring linked to the enabling technologies
 - Digital Transformation projects (48 PhDs)
 - Leadership and coordination
- External funding of followup-projects (5 * NN kroner)
 - SFIs
 - PERSEUS Co-Found (40 PhDs) [PERSEUS - NTNU](#)
 - NGINO
 -

What's ahead ?

- Evaluation last spring - All TSOs and ETs are to end in their current form end of 2023
- Autumn 2022: Work at NTNU on establishing new cross-disciplinary/cross-faculty thematic areas/enabling technologies
 - Organization
 - Thematic areas
 - Digital -> Wider digital transformation program ?
 - See in the light of internal and external development (e.g. new langtidsplan for forskning), utviklingsplan
- Input from faculties etc January 10
- Topic for leadership meeting 24-25 January
- New areas starting Jan. 1 2024

But NTNU Digital do not sit idle

- Following up of current project portfolio (DT, ET, ..) and conferences (e.g. NOKIOS)
- Matchmaker for new initiatives e.g. to selected areas of Horizon Europe (2023-2024 calls)
 - Building shadow-organization to relevant parts of ADRA (including BDVA)
- Visit the leadergroups for all NTNU faculties
- Digitalization in the health sector
- Smart sustainable cities
- AI at NTNU (Building on NAIL, NorwAI and other initiatives -> Contribute to building a leading Nordic AI research and innovation group on the long term)
- Prepare future SFI/FND proposals
 - Example - CESICT - Center for Sustainable ICT

CESICT - NTNU Center for Sustainable ICT

Vision: Establishing knowledge leading to the development and evolution of sustainable IT solutions for sustainable development

Mission: Mobilize multidisciplinary expertise collaborating to guide the digitalization of society in a sustainable direction

Goal: Develop new, innovative, holistic methods, technologies and solutions to support a sustainable digitalization of society, where the research-based knowledge developed is to benefit both nationally and internationally.

Primary acquisition goal: SFI and/or FND (Forskningssenter for Næringsrettet Digitalisering) and accompanying projects

Kick-off 26/9 09:00 <https://www.ntnu.edu/web/digital/kick-off-cesict>

Thank you for the attention !
