

European Digital Innovation Hubs - Current status and how we want to build the network

Matthias Kuom

DG Connect A4: Digital transformation of industrial ecosystems

Benefit from Digital Innovation Hubs to connect the unconnected
NGINO event | 11 May 2021

Smart Anything Everywhere (SAE) ICT Innovation for Manufacturing SMEs (I4MS)

Phase 1: Creating a well-functioning ecosystem
Phase 2: Growing the ecosystem and its European dimension
Phase 3: Consolidating collaboration and widening the pan-European network of DIHs

I4MS

Digital technologies for business operations

(additive manufacturing, Cyber Physical Systems and IoT, robotics and HPC)

Integrating digital technologies into products and services

(Cyber-physical and embedded systems, customized low energy computing, etc.)

The main DIH collaboration space

The screenshot shows the homepage of the DIHNET.EU Community. The header includes the DIHNET.EU Community logo on the left and navigation links for 'Community', 'DIHCatalogue', and 'Login or signup' on the right. The main content area features a large blue background with a network pattern. A yellow banner in the top right corner reads 'DIH champions (DIH awards)' and 'I4MS Disruption (SME award)'. The central text reads 'DIHNET.EU Community'. Below this, a list of features is shown: 'Articles & Announcements', 'Events', 'Matchmaking', 'Q&A', 'Real-time chat', and 'Surveys, guidelines & templates'. A blue button labeled 'Join the community' is positioned at the bottom right of the feature list. The tagline 'Supporting Digital Innovation Hub Networks across Europe' is located below the main title.

Africa-EU Digital Economy Task force

Report recommendations / 4 pillars - June 2019:

- Access to affordable broadband connectivity and digital infrastructure
- Guaranteeing essential Digital skills
- Improving business environment to support Digital entrepreneurship
- Accelerating adoption of E-Services (e-Gov, Smart Cities, e-Commerce, eHealth etc..)

<https://ec.europa.eu/digital-single-market/en/news/new-africa-europe-digital-economy-partnership-report-eu-au-digital-economy-task-force>

Largely reflected by the African Union 2020 Digital Transformation Strategy

<https://au.int/en/documents/20200518/digital-transformation-strategy-africa-2020-2030>

Africa-EU: Current initiatives & key players

PRIDA Project: « *Policy & Regulation Initiative for Digital Africa* » (on-going)

- Important initiative with large number of African countries, African Union and agencies to make progress together towards more harmonised regulatory environment

<https://www.africa-eu-partnership.org/en/projects/policy-and-regulation-initiative-digital-africa-prida>

The Africa EU Innovation Partnership

- Great success and important experience exchange: important initiative to reinforce visibility of African innovation and also to get better knowledge of challenges
- Scope very close to ICT 58 Call

<https://africaeurope-innovationpartnership.net/>

ICT 58: International partnership building between European and African innovation hubs

2021-24 / 11 Mil €

- ***Reinforcing cooperation and strategic partnership*** with selected countries in Africa to support the strengthening of existing digital innovation hubs (DIHs) in Africa and to facilitate the collaboration between EU and African DIHs in order to strengthen a common EU Africa innovation and start-up ecosystem
- ***Projects selected on wide array of DIH topics: technology but also entrepreneurship, industry interface, etc.***
- ***Balanced Consortia with European and African partners***
- ***Reinforcing support to D4D Hub: IDEAD4DHub project***

African-European Digital Innovation Bridge (AEDIB)

5Mil €: key contribution to Bridging dimension; partners in more than 80 countries

- **VISION** is to shape a common African-European innovation and start-up ecosystem in collaboration with key players from Africa and Europe. The core of the project is to **strengthen pan-African and African-European digital innovation partnerships** to promote engagement and knowledge sharing between SMEs, start-ups, academic institutions, governments, intermediaries (hubs, incubators), large companies, research organizations and others
 - **Bridging activities** on technical capacity building and technology transfer between African and European innovators and start-ups, private sector actors, academia, local gov. and investors.
 - **Enabling environment** reinforced by conducive local policies with relevant policymakers

AEDIB coordinator: Stefanie Zinsmeyer (stefanie.zinsmeyer@giz.de)

Projects bringing technology to the benefit of African economy and society

Digilogic (2 Mil €): putting technical solution to the benefit of smart Logistics in African countries

Africon-EU (2 Mil €): validating the “AfriConEu Networking Academy” an innovative mechanism for connecting and sharing best practices, experiences and resources between DIHs in Africa and between DIHs in Africa and EU.

Hubiquitous (2 Mil €): Validating Innovative training concept putting technical knowledge & entrepreneurship skills in synergy

IDEAD4DHub (1 Mil €): Supporting D4D Hub secretariat to promote implementation of the Task Force’s recommendations and Team Europe Initiatives

EDIH rollout

"I want European businesses and our many SMEs to access high quality data and create value for Europeans – including by developing Artificial Intelligence applications."

*Thierry Breton,
Commissioner for the Internal Market*

Upgraded DIH help SMEs to become more digital

The plan is to have at least one EDIH per region

Skills and training

Test before invest

Support to find investment

**Digital
Innovation
Hubs**

**Innovation
ecosystem &
networking**

European Digital Innovation Hubs provide technological expertise and experimentation facilities to enable the digital transformation of the industry and the public sector
Trans-regional collaboration supports shared use of expertise and strengthens Pan-EU value chains

Up to 210 Hubs advising SMEs how to integrate digital innovations into their products, business models and processes and improve digital skills, in cooperation with EEN and clusters.

EDIH means more than “DIH 2.0”

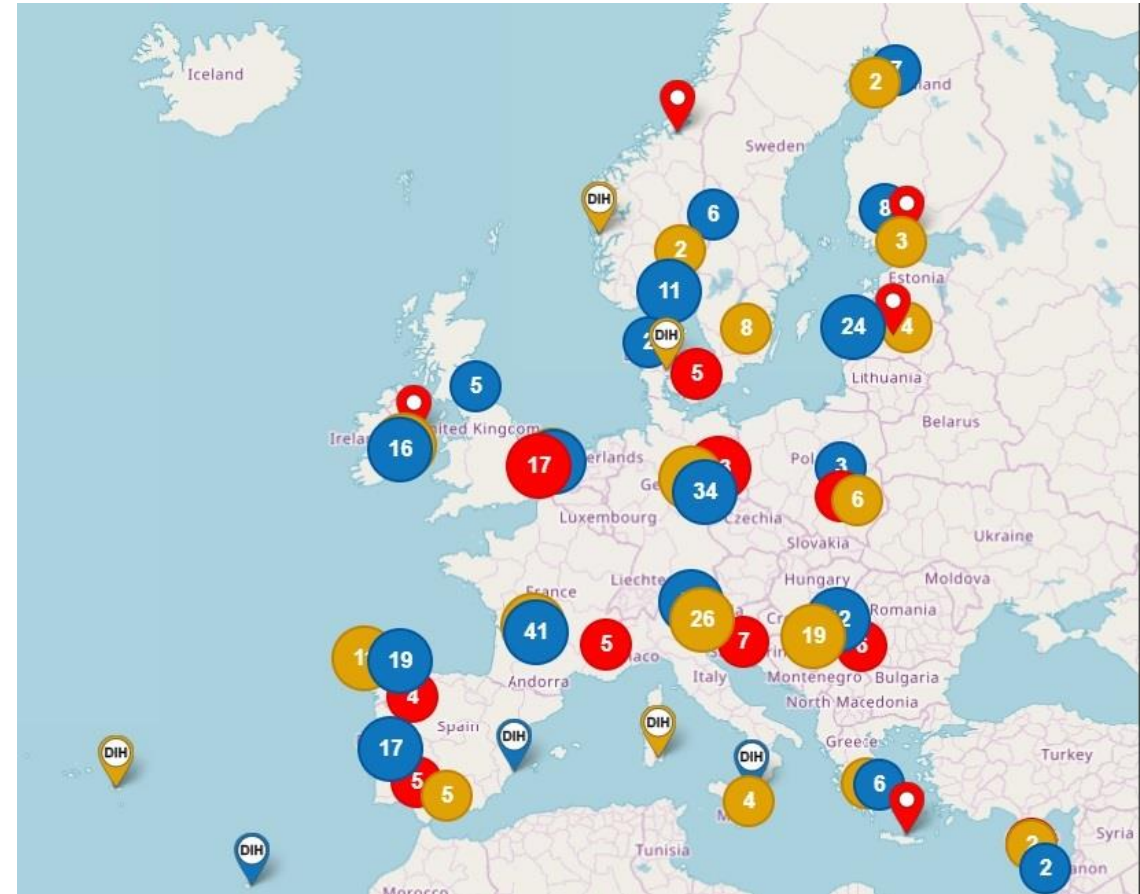

Digital Innovation Hubs in Horizon 2020

- Support to more than 2000 Start-ups, SMEs and mid-caps to test digital innovations

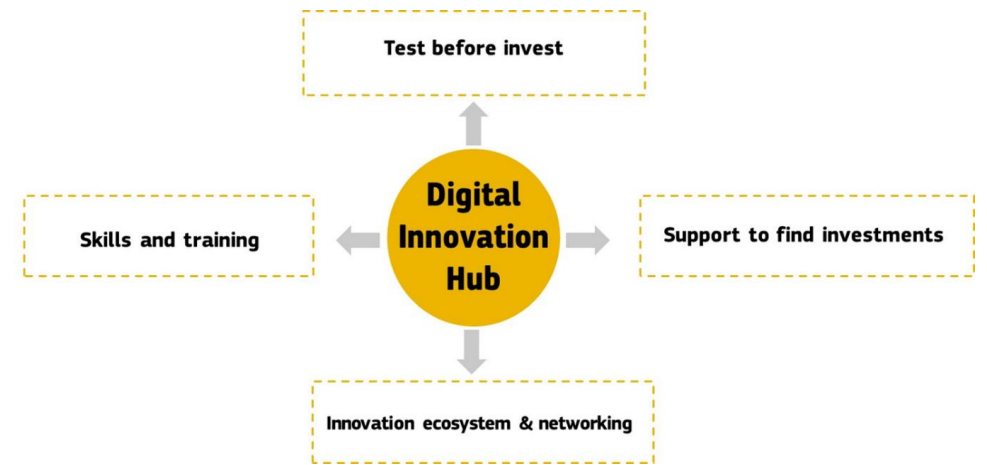

European Digital Innovation Hubs in the Digital Europe programme

- From support to capacity building
- Co-funding from Member States
- From 2000 to...?

*We need a well-structured
European network*

Scope - services

Each EDIH

- will provide services based on a specific focus/expertise
- will make available the relevant experimentation facilities related to its specialisation
- will offer a seamless service with Enterprise Europe Network and Startup Europe
- will act as interface with the European Commission to support the implementation of specific sectorial, SME or eGovernment policies

Specialisms acting as attractor (lighthouse)

(with courtesy of the BOWI project)

Initial Network of European Digital Innovation Hubs

Budget

- Fixed budget per country
- Every EDIH is expected to have a budget between 1-2 M€ per year (DIGITAL grant will cover 50%).
- MS are free to propose more smaller EDIHs or less larger ones.
- Cross-border trans-national hubs, serving different regions from different countries is possible

Timeline

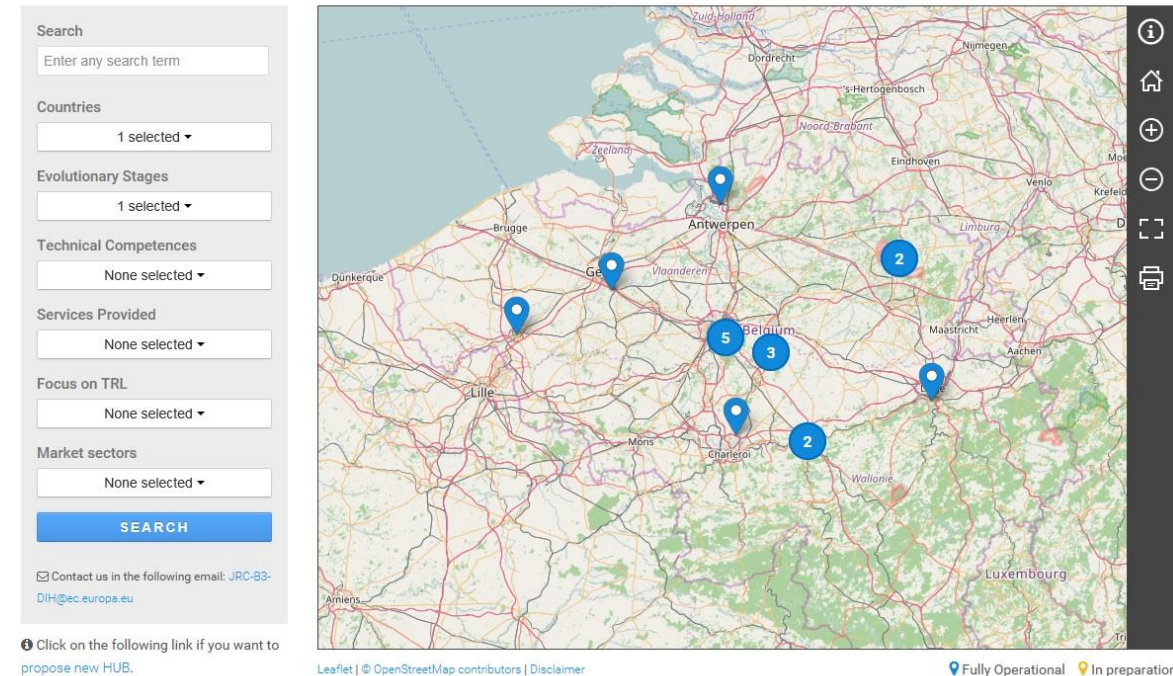

- Call opening: 27 May, deadline for submission: 29 September
- Evaluation (fully remote): October-November
- Sending of letters: December
- Signature of contracts: Beginning of 2022

The fabric for EU-wide collaboration – and beyond

Digital Innovation Hubs Catalogue

- Yellow pages of DIHs
- Fact-sheets with profile, contact data, service examples for regional, national, and EU-supported DIHs
- Map-based search tool by technical competences, market sector, services

Digital Innovation Hubs

Widening activities

BOWI project: Call for proposals to create long-term collaborations between two regions

ICT-58-2020: International Partnership Building between European and African Innovation Hubs

More than 600 Digital Innovation Hubs:

- 10 in Norway
- Mention contacts with African Hubs in their profiles

<http://s3platform.jrc.ec.europa.eu/digital-innovation-hubs-tool>

Some numbers

Specialisation

AI	HPC	Cyber-security
211	95	137

- **27 countries** have preselected their candidate entities (26 Member States + Norway)
- **331 EDIH candidates** pre-selected by the countries

Other digital technologies

Auto-mation	Big Data	Blockchain	Cloud	Communication technologies / 5G	IOT	Micro-electronics / Photonics	Advanced materials	Robotics	Virtual Reality
17	58	34	35	48	74	35	34	63	45

Sectors

Agri-food	Auto-motive	Construction	Creative industry	Health	Public sector	Life sciences	Logistics	Manufacturing	Maritime	Mobility	Skills	Social care	Sustainability	Tourism	Energy
64	20	29	19	80	105	16	38	139	24	57	86	6	66	26	32

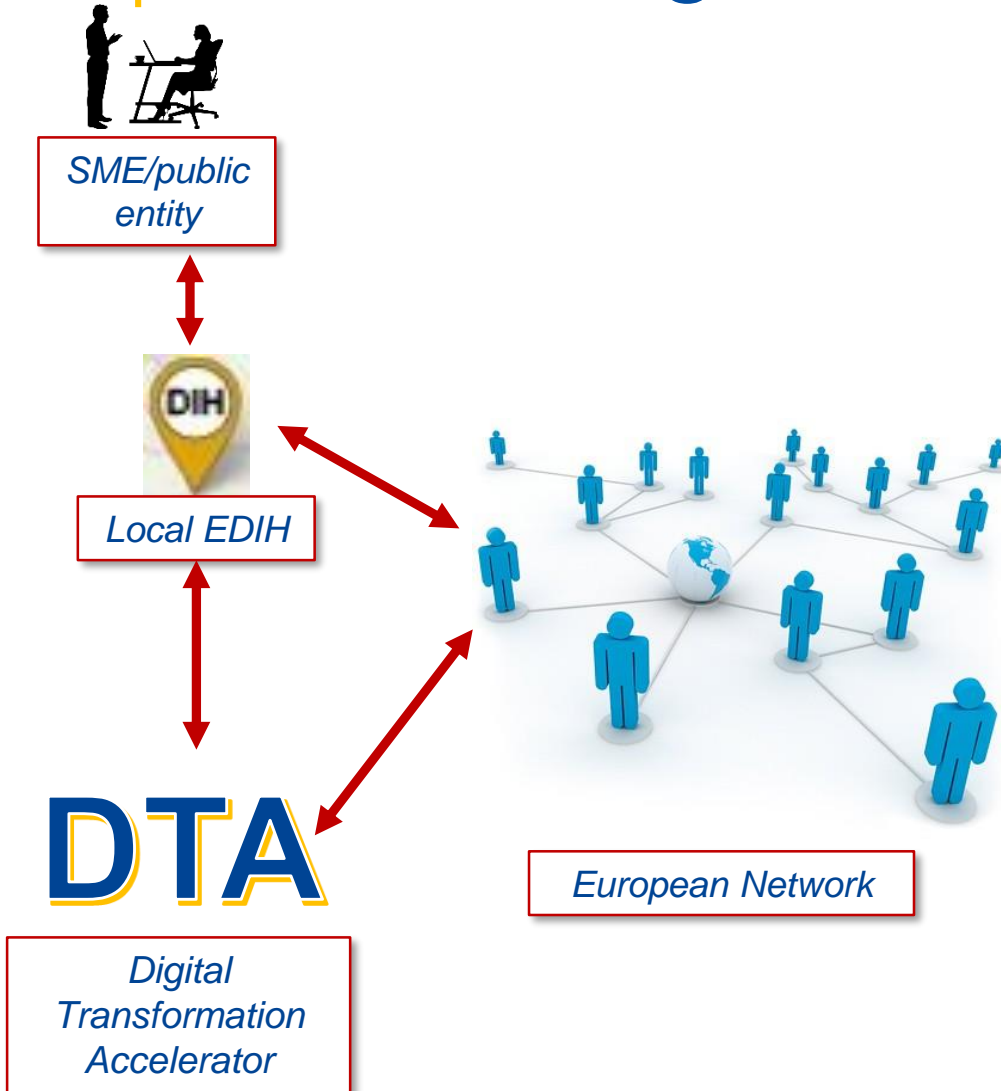

DIHs Candidate European DIHs

- New version of catalogue available
- Profiles can be updated directly by the candidate hubs

<https://s3platform.jrc.ec.europa.eu/digital-innovation-hubs-tool>

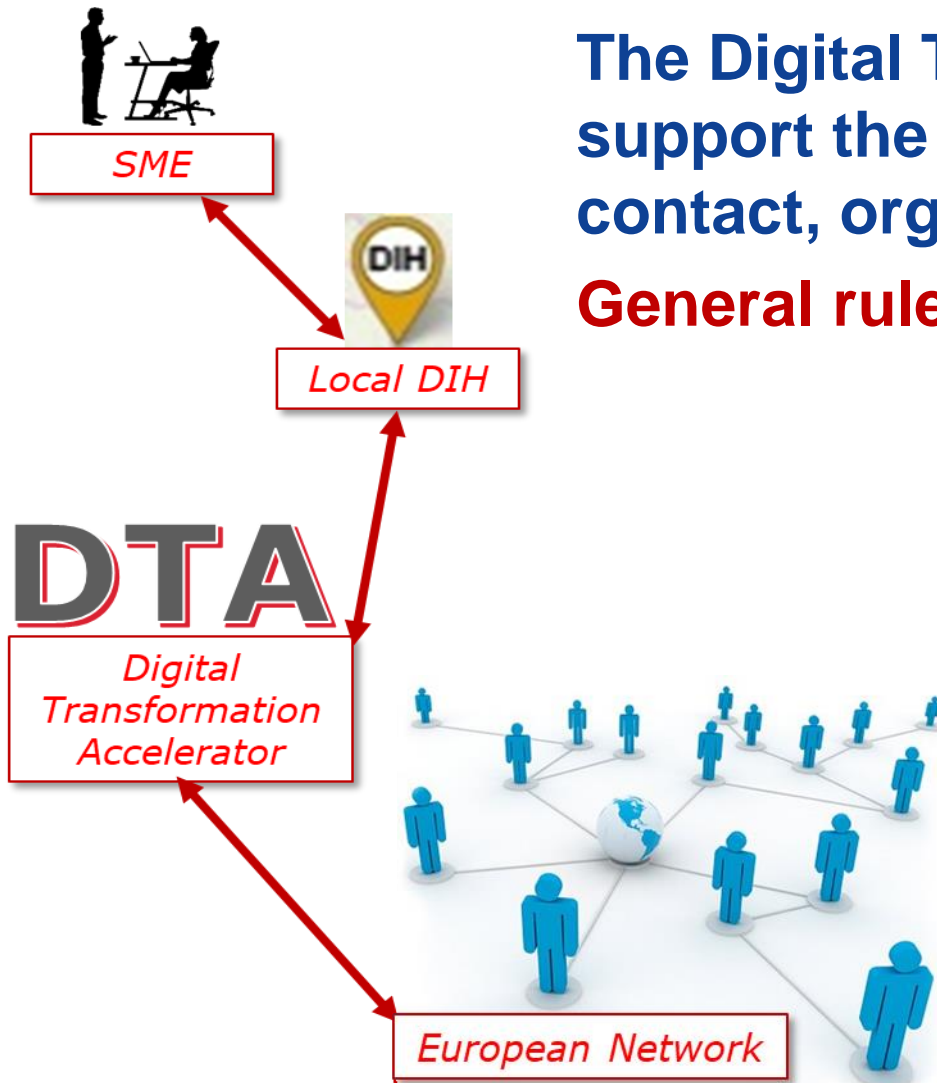

Networking - “EU-Local” approach

EDIHs will:

- act as an access point to the European network of EDIHs for local organisations
- actively network with other hubs, sharing best practices and specialist knowledge
- bring companies into contact with other companies of their value chain, and seek synergies with innovators
- broker between public administrations and companies providing e-government technologies.

Role of DTA in collaborations

The Digital Transformation Accelerator will be available to support the collaboration activities e.g. by putting people in contact, organising events and providing technical help.

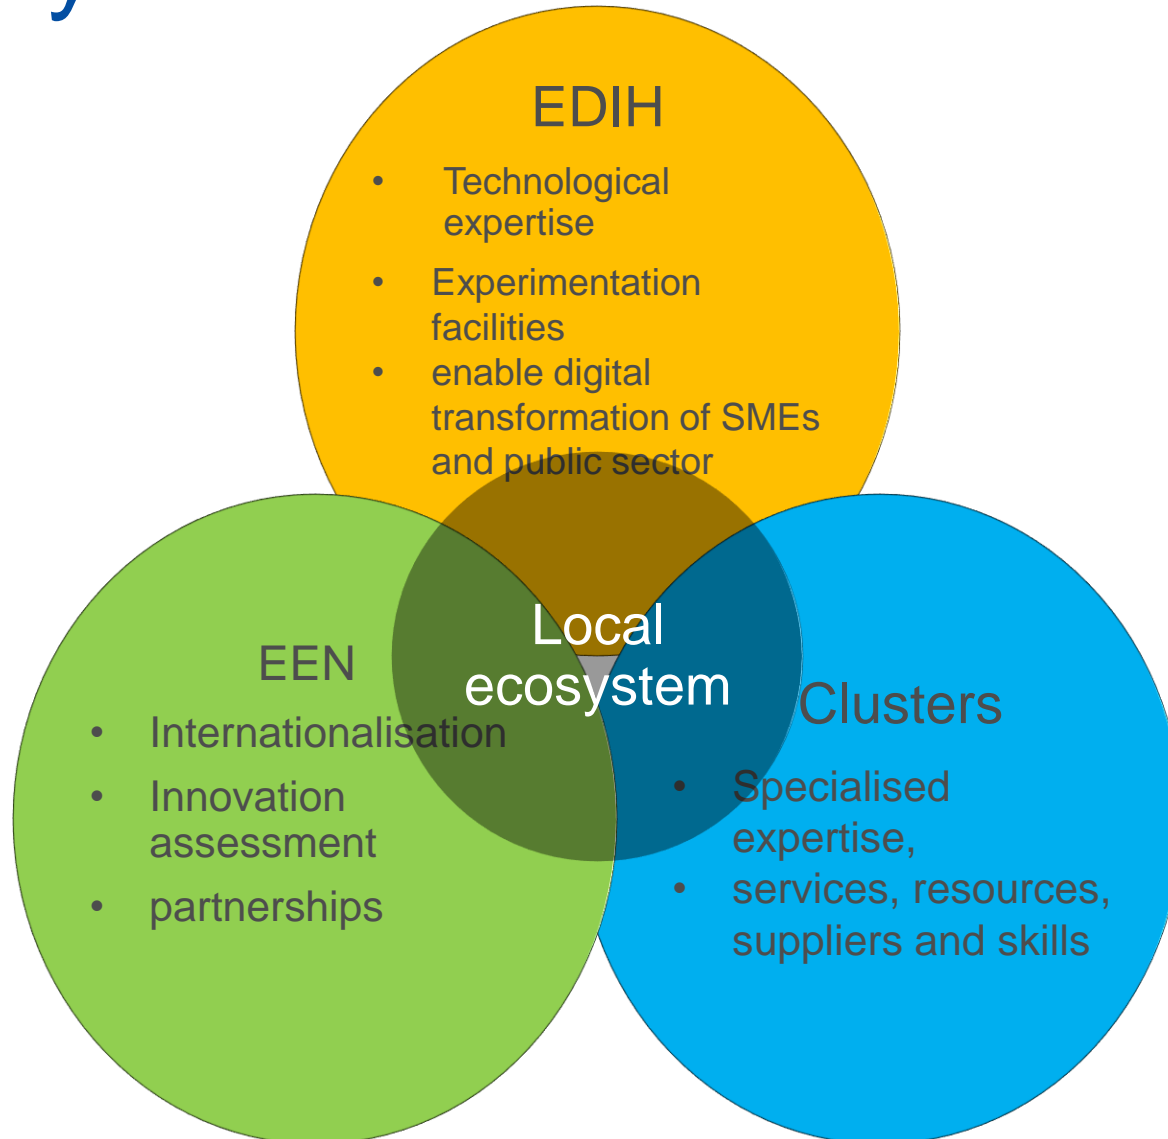

General rule: each EDIH pays for their own expenses.

DIHs which are not part of the European DIH network (e.g. DIHs supported by Horizon Europe programme, by National funding programmes or other funds, or self-declared DIHs registered in the catalogue will be considered part of the community and supported as long as the cost to provide them a services is marginal.

The Local ecosystem and its networks

Synergy potentials:

- Local/regional embedding of the networks
- SME strategy – key focus on digitalisation
- Common commissioner for DG GROW and DG CNECT acting as **Team Breton**

Digital for Development (D4D) Hub

- **VISION** is to shape a common African-European new era of the global digital cooperation.
 - **Launching December 2020 – Chancellor Merkel**
 - Strong presence of Member States agencies GIZ, Enabel, Experise France, etc.
 - 11 Member States expected to join as a whole
- 
- A horizontal row of 11 national flags representing the Member States expected to join the D4D Hub. From left to right, the flags are: Belgium, Germany, France, Spain, Italy, Greece, Hungary, Austria, Portugal, Finland, and Sweden.
- Private sector : key role to play
 - Concrete translation of Team Europe : holistic view, synergy bet EU / national level, for better efficiency
 - Not a financial institution but support to decision making process
 - D4D Hub will cover other continents
