

Oceans in Change focuses on the importance of research and knowledge as well as responsible communication of topics related to the Oceans. Our Speakers will talk about the importance of how to bring facts to the spotlight and raise empathy for Ocean Issues. Furthermore, they will consider the significance of research based development and investment.

PLENARY SESSION MONDAY 6: Oceans In Change Chair, Moderator: Ingrid Schjølberg, Director NTNU Oceans. Nancy Bazilchuk, Scientific Journalist, Communication Division		
Time	Speaker	Topic
09:30	<i>Oceans' Jazz – Trondheim Jazz Festival – TBC</i>	
10:00	Francesca Thyssen-Bornemisza - Founder and Chair of Thyssen-Bornemisza Art Contemporary (TBA21)	"Sounds Too Many", performative lecture
10:20	Vidar Helgesen - Norway's Special Envoy to the High-level Panel on Building a Sustainable Ocean Economy.	TBA
10:35	Iselin Nybø - Norwegian Minister for Science and Higher Education	TBA
10:50	Thierry Béchet - EU Ambassador & Head of the EU Delegation to Norway	TBA
11:00-11:30	Ocean Talks: Panel Discussions on Communication of Ocean research/facts. How to bring facts to the spotlight and raise empathy/awareness for Ocean Issues? Chair Moderator: Ingrid Schjølberg – Director NTNU Oceans <i>Nybø; Thyssen-Bornemisza; Helgesen; Thierry Béchet</i>	
11:30	TBA	TBA
11:40	Jarl Frijs-Madsen - Danish ambassador to Norway	TBA
11:50	Liv-Sissel Hagemann Hammer - Senior Vice President DnB NOR Bank ASA	TBA
12:00-12:30	Ocean Talks: Panel Discussions on Investment decisions, the importance of environmental funds and the role of Research, Technology & Art for a healthy Ocean Chair Moderator: Ingrid Schjølberg – Director NTNU Oceans <i>Berhard Friess (Director MARE EU Commission); Markus Reymann (Director TBA21–Academy); Toril A. N. Hernes (NTNU, Pro-Rector Innovation); Frijs-Madsen; H. Hammer;</i>	
12:30 – 13:30	<i>LUNCH at the Radisson Blu Royal Garden</i>	

ART & Oceans – VIP Lunch and Art Exhibit Opening
Florian Schneider - KIT at Radisson Blu Oasis Space

MONDAY May 6 – AFTERNOON PARALLEL SESSIONS

1. **Technology and New Solutions in our Oceans**
2. **Other Voices, Other Stories**
3. **Exploring the Poles – Research to Action**

Technology and new solutions in our Oceans focuses on the positive and necessary application of research based new technology for a sustainable interaction with our Oceans. Our speakers will present new research and innovation opportunities. Discussion will unfold under the concept of responsible technological development.

PARALLEL SESSION MONDAY 6: Technology and New Solutions in our Oceans Moderator: Ingrid Schjøllberg, Director NTNU Oceans		
Time	Speaker	Topic
13:30	Bernhard Friess - Director, Directorate-General for Maritime Affairs and Fisheries, European Commission	TBA
13:45	Vegar Johansen - CEO SINTEF Oceans	Innovative solutions based on reliable science, a sustainable business
14:00	Olav Bolland - Dean of the Faculty of Engineering at the Norwegian University of Science and Technology, NTNU	Is technology a positive driver of sustainability
14:15	Elisabeth Maråk Støle - Director NORCE Norwegian Research Centre AS	Presentation of a project
14:30	Tonje Eskeland Foss - Regional Director, North, ATEA	Machine learning in aquaculture an innovative solution to fish health
14:45	Oceans Talks – Trondheim Ocean Space Center: Friess; Johansen; Bolland; Støle; Foss;	
15:05 – 15:35	<i>BREAK</i>	
15:35	Ståle Emil Johansen, NTNU Dept. of Geoscience and Petroleum	How electromagnetic detection of mineral resources provides a sustainable solution to exploration
15:50	PhD Pitch Session – TBA /// One from Ingrid two DSM – Bent Haugaløkken – DSM: TBA	TBA
16:05	Steffan Lindsø, Director of Emerging Technology, Oceaneering Europe	New autonomous systems for subsea inspection
16:20	Asgeir J. Sørensen, NTNU AMOS	TBA
16:35	SINTEF TBA	TBA
16:45 – 17:00	Oceans Talks: TBA	

Other Voices, Other Stories: The Ocean nourishes and sustains not only human life, but all life on Earth. We have devised innumerable practices that treat the ocean as a resource. But what can we do to nourish and sustain the ocean in return? How have human societies constructed and represented their relationship to the ocean through the stories we tell about it? How do ocean narratives help us to understand the relationship between our ocean stories and the environmental challenges we now face: climate change, pollution, extinctions, sea level rise, environmental justice, food insecurity, and more? How do the humanities provide new approaches to interpretations, representations, imagination and new understandings of ocean narratives?

This session is organized by HAVANSVAR Humanities Ocean Initiative – an NTNU Oceans Pilot on Ethical, Social and Cultural aspects of Ocean Research and Innovation. HAVANSVAR is a research programme addressing ethical, cultural, communicative, narrative and historic dimensions of the ocean.

PARALLEL SESSION MONDAY 6: Other Voices, Other Stories		
Moderator: Siri G. Carson, NTNU leader of HAVANSVAR Humanities Ocean Initiative		
Time	Speaker	Topic
13:30	Ursula Munster, Director Environmental Humanities School at UiO	Blue Humanities
13:45	Martin Lee Mueller, Associate Professor, Rudolf Steiner University Colleague	Being Salmon, Being Human
14:00	Anne Trine Kjørholt, NTNU/ Norwegian Centre for Child Research	“The Sea, the boat and the fish”. Coastal Childhood work and Knowledge in Transition
14:15	Markus Reymann – TBA21 Academy - TBC	TBA
14:30	Toril A. N. Hernes - NTNU, Pro-Rector Innovation - TBC	TBA
14:45	Ocean Talks: what can we do to nourish and sustain the ocean? Innovation in Humanities for a healthy Ocean <i>Munster; Lee Mueller; Kjørholt; Reymann; Hernes</i>	
15:05 – 15:35	BREAK	
15:35	Hanna Musiol, NTNU Dept. of Language and Literature	On art, technology and the ocean
15:50	Julia Leyda, NTNU, Dept. of Art and Media Studies	On representations of the ocean in tv series
16:05	Dag Elgesem, Institutt for informasjons- og medievitenskap	TBA
16:20	PhD pitch session – TBA	TBA
16:45 – 17:00	Oceans Talks: Storytelling, Science Fiction,	

Exploring the Poles – Research to Action focuses on the great significance of the Arctic and Antarctic both for observation of climate change and for its impact on the overall Ocean Health. The Speakers will paint a clear picture of the effects of climate change and the actions imperative to reduce human impact in these fragile areas.

PARALLEL SESSION MONDAY 6: Exploring the Poles – Research to Action Moderator: Julia Farkas, SINTEF Ocean & Geir W. Gabrielsen NPI		
Time	Speaker	Topic
13:30	Geir W. Gabrielsen, Head Environmental pollution section, Norwegian Polar Institute	Microplastics in the Arctic
13:45	Susan Eaton SEDNA EPIC EXPEDITION, Expedition Founder	Opening of the Arctic sea ice Navigating the High Arctic
14:00	Ingrid Ellingsen, Environment and New Resources SINTEF Ocean	Polar ocean circulation
14:15	Chantel Nixon NTNU, Dept. of Geography	Gas hydrates in the Barents Sea
14:30	Emlyn Davis, Environment and New Resources SINTEF Ocean	Monitoring the Arctic
14:45	PhD pitch session – TBA	TBA
15:05 – 15:35	<i>BREAK</i>	
15:35	Liv-Guri Faksness, Environment and New Resources SINTEF Ocean	Oil spills the Arctic -are we prepared
15:50	Arthur Mason, NTNU Dept. of Social Anthropology	New Arctic: Expressions of Neoliberal Interest in the Wake of Exxon Valdez Oil Spill
16:05	Hurtigruten - TBC	TBA
16:20	Ida Øverjordet, Environment and New Resources SINTEF Ocean	Pollution - Fat matters
16:30	Bjørn Munro Jensen NTNU, Dept. Biology	Pollutant trends in the Arctic
16:45 – 17:15	Oceans Talks: Gabrielsen, Irina Rogozhina, Ramon Larremendi	

After Sessions Reception and Mingling with Trondheim Jazzfestival
Radisson Blu Royal Garden Ocean Week Launch Area

Policies and Other Initiatives for a Fragile Living Ocean focuses on the efforts that Industry, Institutions and research make to preserve our fragile Oceans and the knowledge that we need for a better decision-making process for all Ocean related activities.

PLENARY SESSION TUESDAY 7: Policies and Other Initiatives for a Fragile Living Ocean		
Session Chair: Ingrid Schjøberg, Director NTNU Oceans. Nancy Bazilchuk, Scientific Journalist, Communication Division		
Time	Speaker	Topic
	<i>Being Salmon, Being Human – Teaser of the Performance</i>	
09:30	Alan Simcock, Joint Coordinator at UN Group of Experts of the Regular Process (World Ocean Assessment)	World Ocean Assessment
09:45	Harald Solberg, CEO Norwegian Ship-owners Association	Sustainable Shipping
10:00	Bjørn Haugland, Executive Vice President and the Chief Sustainability Officer DNV GL/// administrerende direktør i Næringslivsalliansen	Industry Collaboration toward sustainability
10:15	Iwona Woicka-Żuławska, Ambassador of the Republic of Poland	TBA
10:30	Richard Thompson, Director of the Marine Institute - University of Plymouth	Microplastics
10:45-11:05	Ocean Talks: Panel Discussions on Actions for a Sustainable Ocean Simcock; Solberg; Thompson; Haugland; Woicka-Żuławska	
11:05-11:10	TBA	
11:10	Ingrid Schjøberg, Director NTNU Oceans	Technology for Sustainability
11:20	TBA	TBA
11:30	Ramón Larramendi; Project Leader Inuit Windsled Antarctica expedition	Inuit Windsled Antarctica, a project for the Scientific Research of the Poles
11:45	Jan-Gunnar Winther, Director Norwegian Centre for the Ocean and the Arctic, NOFIMA & Specialist Director at the Norwegian Polar Institute	Foresight study by Centre for Ocean and Arctic
11:55	Anna Mária Sikó, Ambassador of Hungary	TBA
12:00	TBA	TBA
12:15-12:35	Ocean Talks Larremendi; Winther; Sikó Sturla Henriksen - UN Global Action Platform for Sustainable Ocean Business; Andreea Strachinescu, Head of Unit New Energy Technologies and Innovation in the Directorate General for Energy, European Commission;	
12:35	LUNCH	

TUESDAY May 7 – AFTERNOON PARALLEL SESSIONS

1. Coastal Engineering Crossing Over
2. New Biomarine Value Chains Based on Resources Low in the Food Chain
3. Green Energy Impacts on a Blue Ocean

Coastal Engineering Crossing Over focuses on innovation linked to coastal development and the use of coastal resources.

PARALLEL SESSION TUESDAY 7: Coastal Engineering Crossing Over Moderator: Hans Bihs		
Time	Speaker	Topic
13:30	Athul Sasikumar, Norconsult	New Design and Modeling Approaches in Coastal Engineering
13:45	Bruno Sainte-Rose, Lead Computational Modeler at The Ocean Cleanup	The Ocean Cleanup
14:00	Kjersti Bruserud, Management assistant/advisor to Chief Technology Officer (CTO) Equinor	TBA
14:15	Nils Goseberg, TU Braunschweig/GWK	The Future of Experiments in Coastal Engineering
14:30	Arun Kamath, NTNU Trondheim	Cutting-edge aquaculture structure hydrodynamics - from research to teaching
14:45	Csaba Pakozdi, Sintef Ocean	Building Next-Generation Computational Marine Hydrodynamics Software
15:05 – 15:35	<i>Break</i>	
15:35	Claes Eskilsson Ålborg University/RISE Göteborg	Ocean Wave Energy
15:50	Raed Lubbad, NTNU Trondheim	Arctic Coastal Engineering
16:05	Marit Reiso, Fedem	TBA
16:20	PhD pitch session: Tobias Martin, Weizhi Wang	TBA
16:30– 17:00	Ocean Talks	

New Bio Marine Value Chains Based on Resources Low in the Food addresses the potential for establishing new bio marine value chains through exploitation of low-trophic species from the oceans. Solutions on how to develop circular bio economy and produce more food, feed and materials for a growing population will be presented.

PARALLEL SESSION TUESDAY 7: New Biomarine Value Chains Based on Resources Low in the Food Chain Moderator: Berit Løkensgard Strand, NTNU; Aleksander Handå, SINTEF		
Time	Speaker	Topic
13:30	TBA	New Vision from the region
13:45	Andreas Hagemann, SINTEF Ocean Dept. of Environment and New Resources	Norwegian plankton technology center; New species in aquaculture
14:00	Marealis TBC	Peptides from shrimp shell
14:15	Kurt Tande, Calanus TBC	Harvesting and use of Calanus
14:30	Stein Kaartvedt, UiO TBC	Stock estimation of mesopelagic fish
14:45	Hanne Digre, SINTEF Ocean Dept. of Seafood Technology	Project Results & SFI Harvest
15:05 – 15:35	<i>Break</i>	
15:35	Terje Finstad, NTNU Dept. of Interdisciplinary Studies of Culture	Seaweed as horizon resource in blue imaginaries, Norway 1950s to 2000s?
15:50	Aleksander Handå, SINTEF Ocean Dept. of Environment and New Resources	MACROSEA – A knowledge platform for industrial macroalgae cultivation
16:05	Finn Aachmann NTNU Dept. of Biotechnology	Norwegian seaweed processing platform
16:20	Bioprospecting - TBC	TBA
16:30	PhD pitch session: TBA	TBA
16:45 – 17:00	Ocean Talks	

Green Energy Impacts on a Blue Ocean focus what will the development of green energy sources and new technologies will mean in terms of the impact that these could have in our Oceans and the development of the blue economy. Our speakers will present the latest developments in energy technology and initiatives for international collaboration.

PARALLEL SESSION TUESDAY 7: Green Energy Impacts on a Blue Ocean		
Time	Speaker	Topic
13:30	Johan Einar Hustad, NTNU Director TSO Energy	NTNU's research efforts on renewable energy
13:40	Andreea Strachinescu, Head of Unit New Energy Technologies and Innovation in the Directorate General for Energy, European Commission	EU as a driver to Advances in New Energy Technologies
13:55	Karl Eirik Schjøtt-Pedersen CEO The Norwegian Oil and Gas Association	
14:10	Tor Eldervik, University of Bergen, Geophysical Institute	Energy-Climate Balance, finding the right formula.
14:25	TBA	TBA
14:40	Nils Anders Røkke, Executive Vice President Sustainability - SINTEF TBC	TBA
14:55	PhD pitch session: Erick Fernando Alves Atousa Elahidoost/Abel A. Taffese	Wind turbines in O&G platforms Offshore electrical grids TBA
15:10 – 15:35	BREAK	
15:35	Trond Strømgren, Subsea Innovator at GCE Ocean Technology	TBA
15:50	Hege Brende, Centre Director in FME HydroCenter TBC	TBA
16:05	Elisabetta Tedeschi, NTNU Dept. of Electric Power Engineering	Energy Grids, future of the energy distribution in Europe
16:20	TBA	TBA
16:30	TBA	TBA
16:45 – 17:00	Ocean Talks	

WEDNESDAY May 8 – ALL DAY PARALLEL SESSIONS

1. Life Cycle Thinking in Deep-Sea mining
2. Aquaculture in Society – How to Match the UN SDGs?
3. Ocean Health
4. Autonomous Ships

Life Cycle Thinking in Deep-Sea mining focuses on the interrelationship between deep-sea mining and sustainability. Our speakers will try to answer question as: Can deep-sea resources contribute to sustainable *development*, and how do we make deep-sea mining sustainable? How life cycle thinking can contribute to sustainable deep-sea mining? Generally applied in support of technology development and environmental management, life cycle thinking also forms the basis for environmental legislation in Europe and Norway.

Deep-sea mining in Norwegian and international waters will occur in harsh conditions, where Arctic marine operations and offshore oil and gas provide highly relevant experience. Our speakers bring together experience in life cycle thinking in legislation as well as offshore and mining industries.

PARALLEL SESSION WEDNESDAY 8: Life Cycle Thinking in Deep-Sea mining		
Time	Speaker	Topic
08:45		
09:00	Steinar Løve Ellefmo, NTNU	What is Sustainable Development? Introduction to SDGs and sustainability
Can deep-sea resources contribute to sustainable development?		
09:15	Johan Berg Pettersen, NTNU	The role of metals for transition to sustainable society
09:30	Daniel Müller, NTNU	Circular Economy - Metals in society, stocks and flows
09:45	TBC	The resource potential of deep sea mining
10:00	TBA	The ethics of deep sea mining??
10:15	Coffee Break	
10:45	TBA	TBA
11:00	Paul Midford, NTNU Dept. of Sociology and Political Science	Technological drives & Maritime conflict – codes of conduct. Mitigation of maritime conflicts for sustainability
11:15	PhD pitching session: TBA	TBA
11:30	Ocean Talks: How do we make the deep-sea mining value-chain sustainable?	
12:00	LUNCH	
What is a sustainable deep-sea mining value-chain?		
13:00	TBA	Impacts of mining – experience from LCA
13:15	TBA	Impacts of offshore oil & gas operations – experience from LCA
13:30	TBA	What is the deep-sea mining value-chain and the life cycle environmental impacts; subsea, offshore, logistics and onshore

13:45	TBA	TBA
14:00	TBA	TBA
14:15	PhD pitching session: TBA	TBA
14:30	Ocean Talks: Can deep-sea resources contribute to sustainable development?	
15:00	Coffee Break	
Current research and research gaps in DSM		
15:30	PhD pitching session: TBA	TBA
15:45	TBA	TBA
16:00	TBA	TBA
16:15	Ocean Talks: what are current knowledge gaps	

Aquaculture in Society – How to Match the UN SDGs? Aquaculture plays an important role in many of the SDGs defined by the UN. During this session we will look at the interactions between research and industry, the impact of knowledge and technology development in the aquaculture industry and its focus on 5 SDGs.

PARALLEL SESSION WEDNESDAY 8: Aquaculture in Society – How to Match the UN SDGs?		
Time	Speaker	Topic
08:45		
GOAL 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture GOAL 3: Ensure healthy lives and promote well-being for all at all ages		
09:00	Ragnar Tveteraas, University of Stavanger (UiS)	Aquaculture as an active contributor to reaching the UN SDGs
GOAL 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation		
09:30	Hans Bjelland, Seafood Technology SINTEF Ocean	TBA
09:45	Eivind Dale, DNV-GL	TBA
10:00	Martin Føre, NTNU AMOS	TBA
10:15	<i>Coffee Break</i>	
10:45	Rune Vilhelmsen, Business Manager Smart Aquaculture at Telenor TBA	Communication in Aquaculture
11:00	Maria Bergvik, Planktonic	Innovative feed solutions in a global market
11:15	PhD pitching session: Tobias Slette, Tale Skrove, Kristbjörg Jónsdóttir	TBA
11:30	Ocean Talks, Moderator Alexandra Neyts -	
12:00	<i>LUNCH</i>	
GOAL 12: Ensure sustainable consumption and production patterns		

13:00	Anette Grøttland Zimowski, Norwegian Seafood Council	Brand building and mythbusting – communicating sustainable Norwegian aquaculture across the world
13:15	Helen Ann Hamilton, NTNU Dept. of Energy & Process Engineering	Aquaculture's footprint: research tools and methods – globally
13:30	Harald Sveier, Manager at Lerøy Ocean Harvest	World’s best protein producer from a sustainability perspective
13:45	Sepideh Jafarzadeh, SINTEF Ocean	The environmental footprint of seafood production
14:00	PhD pitching session: Vilde Steiro Amundsen, Inka Seekamp, Siv Anina Etter	TBA
14:15	Ocean Talks - Moderator Kjell Inge Reitan -	
14:35	<i>Coffee Break</i>	
GOAL 11: Make cities and human settlements inclusive, safe, resilient and sustainable		
15:00	Svein Johan Frisvol, Research Manager Ruralis	TBA
15:15	Bente Malmo, BDO – TBC	TBA
15:30	Student Innovation pitching session: TBA	TBA
15:45	Morten Volden, Rådmann Trondheim Municipality	TBA
16:05	<i>Close and Walk to the ferry and bus to Sistranda Frøya</i>	

ADDITIONAL PROGRAM AQUACULTURE FRØYA – Evening May 8 - May 9	
Program	Content
1	19:30 - Dinner at the hotel in Frøya, Sistranda – Mingling
2	Boat trip to Aquaculture Site and Ocean Farming - Visit to Innomar and Nutrimar (TBC) - Afternoon return to Trondheim

Ocean Health focuses on the changes faced by our Oceans due to climate change. How could humans reach a better understanding on how to interact with the Oceans without leaving a negative environmental print? Can we help restore the Ocean health? What steps should we take the coming years and how can research help.

PARALLEL SESSION WEDNESDAY 8: Ocean Health		
Time	Speaker	Topic
08:45		
09:00	Mimmi Throne-Holst, SINTEF Ocean	Introduction
09:15	Nina Jensen CEO RevOcean	Ocean Health – Challenges and Solutions
Climate change and ocean health		
09:45	Helene Muri, NTNU Industrial Ecology Programme. Dept. of Energy and Process Engineering	The IPCC 1,5C Report: How will climate change influence ocean health?
10:00	TBA	TBA
10:15	Coffee Break	
Legacy contaminants		
10:45	Murat van Ardelan, NTNU TBC	Climate Change and Release of Heavy Metals
11:00	Marianne Olsen, Senior Research Scientist NIVA Norwegian Institute for Water research	Legacy mercury contaminated seabeds: should we take remediation action or not?
11:15	Alexandros Asimakopoulos, NTNU Department of Chemistry	Legacy POP's: A Cocktail Challenge
11:30	PhD pitching session: TBA	TBA
11:45	Ocean Talks - Q&A session with the speakers and teaser for to the next topic	
12:00	Lunch	
Plastic in the ocean		
13:00	Kristine Berg, Circular Economy Advisor, TOMRA Collection Solutions	eXXpedition: Sailing Through the North Pacific Gyre
13:15	Martin Wagner, NTNU	Risk to all or non - on the impacts of plastic pollution on the environment and societies
13:30	Andy Booth , SINTEF Ocean	Microfibre: How dangerous are your clothes to the ocean?
13:45	Erlend Standal, SALT	Fishing for Litter
14:00	Susie Jahren, SINTEF Industry, Materials and Nanotechnology	How do we solve our plastic problem?
14:15	Ocean Talks - Q&A session with the speakers and teaser for to the next topic Ocean Talks	
14:30	Coffee Break	
Emerging pollutants		

15:00	Lisbet Sørensen, SINTEF	Plastics in the environment - a sink, source or vector for emerging pollutants
15:15	TBA	TBA
15:30	TBA	TBA
15:45/16	Ocean Talks - Q&A session with the speakers and Concluding remarks	

Autonomous Ships focuses on the challenges of research and the innovation of new concepts and methods which will enable the development of autonomous methods of transport for people in urban water channels. This technology can be transformative both technologically, societally and in terms of new business opportunities.

PARALLEL SESSION WEDNESDAY 8: Autonomous Ships		
Time	Speaker	Topic
08:30		
09:00	Morten Breivik, NTNU, Dept. of Engineering Cybernetics	Intro
09:20	TBA	Key Note
09:50	NTNU Cybernetics, TBA	Autosea
10:10	<i>Coffee Break</i>	
10:45	Thomas Porathe, NTNU Dept. of Design	HMI + Shore control center
11:05	Patrick Waldermar, Research Leader Technology, Telenor	Communication 5G/cyber security, Logistic
11:25	Roy Nilsen, NTNU Dept. of Electric Power Engineering	Electric power systems
11:45	Øyvind Smogeli DNV GL, Digital Assurance program	Assurance technology. Emerging Digital Technologies and Cyber-Physical Systems in Autonomous Applications
12:05	Lunch	
13:00	Nils Haktor Bua, Norwegian Maritime Authority	Regulations
13:20	TBA	TBA
13:40	Master/PhD students pitching - Bjørn-Olav Holtung Eriksen Erik Wilthil - NTNU Cybernetics	TBA
14:00	TBA	TBA
14:20	Erlend Solem, Trøndelag county council	Innovative maritime transportation solutions
14:40	<i>Coffee Break</i>	
15:00	TBA	TBA
15:20	Beate Kvamstad Lervold, SINTEF Ocean	E39 and autonomous ferries
15:40	Daniela Rus (MIT), Roboat Amsterdam	Roboat Amsterdam
16:00	NCE Maritime Cleantech	Urban Water Shuttle

OCEAN WEEK 2019 – Ålesund – THURSDAY May 9

LOCATION: Campus Ålesund, different locations depending on the Session:

- **Our Blue Vision**
Location: Norsk Maritimt Kompetansesenter, Borgundveien 340, 6009 in Ålesund
- **Blue Proteins: Towards a sustainable use of marine resources**
Location: Naftadjupet Auditorium, NTNU Campus in Ålesund
- **Safe, clean and efficient exploration of ocean resources, through low emission solutions and advanced simulation technologies**
Location: Brosundet Auditorium, NTNU Campus in Ålesund

Our Blue Vision

PLENARY SESSION MONDAY 9: Our Blue Vision Conference Chair, Moderator: Annik Magerholm Fet		
Time	Speaker	Topic
08:30	Registration	
09:30	Annik Magerholm Fet, Vice-Rector NTNU in Ålesund	Welcome at NTNU Ålesund – Ocean Week 2019
09:40	State Secretary for Climate and the Environment: Sveinung Rotevatn	Opportunities in a Sustainable Ocean Economy
10:00	Ingrid Schjølberg, Vice-Dean Research NTNU Engineering Faculty, Director NTNU Oceans	NTNU Oceans – Oceans Research
10:10	Bergljot Landstad, Regional og næringssjef	Importance of Ocean Week for the region Møre and Romsdal
10:25	Kongsberg Maritime - TBA	Can Technology Save the Ocean?
10:40	Birgit Liødden, Director of Sustainability, Ocean Industries & Communication	TBA
10:55	Dina Aspen, NTNU Dept. of Industrial Economics and Technology Management	Decision-Support for Sustainable Oceans
11:10	Ocean Talks: Ocean sustainability, what does it mean for energy and food? <i>Rotevatnm, Fet, Schjølberg, Landstad, Liødden, Aspen</i>	
11:30	<i>LUNCH Cultural Performance from Sunmøre</i>	

AFTERNOON PARALLEL SESSIONS

Blue Proteins: Towards a sustainable use of marine resources

PARALLEL SESSION THURSDAY MAY 9		
Blue Proteins: Towards a sustainable use of marine resources		
Brosundet Naftadjupet Auditorium NTNU Ålesund - Moderator: Ann-Kristin Tveten		
Time	Speaker	Topic
12:30	Ann-Kristin Tveten, Research Coordinator Institute for Biological Sciences	Introduction and Welcome
12:40	Ana Carvajal – Sintef Ocean	Overview of research in the area of blue Proteins
13:10	IPFF Christophe Derrien TBC	New innovative protein sources
13:35	Grete Hansen Aas, NTNU	From residual material to human consumption
13:50	Miroslava Atanasova, Møreforsking	New species, new markets
14:10	Inge Bruheim, Rimfrost	Krill as a source of marine protein
14:25	<i>BREAK</i>	
14:55	Ola Ween, Møreforsking	Latest development in fishmeal
15:10	Margrethe Lundevold Norland, Plarva Solution	Plastic-eating larvae
15:25	PhD Pitch Session: Kristine Kvangarsnes, NTNU	
15:35	Oceans Talks – Wrap-up	
16:10h-19h	Activities in common Tour around simulators, Food, Pitch session for student companies etc.	

Safe, clean and efficient exploration of ocean resources, through low emission solutions and advanced simulation technologies

PARALLEL SESSION THURSDAY MAY 9 Safe, clean and efficient exploration of ocean resources, through low emission solutions and advanced simulation technologies Brosundet Auditorium NTNU Ålesund - Moderator: Hans Petter Hildre		
Time	Speaker	Topic
12:30	Hans Petter Hildre, Head of Department Ocean Operations and Civil Engineering	Introduction
12:40	Siri Kalvig, Fornybar	Opportunities in Offshore Wind
13:05	Jørn Helge Dahl, Hexagon	The Hydrogen Society
13:30	Jan Kvålsvold, DNV-GL	Energy Transition Outlook towards 2050 – what could it mean for shipping
13:55	John M. Lervik, Cognite	Data Liberation: Breaking the barrier between sea and land
14:20	BREAK	
14:50	Joel Mills, Offshore Simulation Centre	Simulation as a tool for Operation planning
Ocean research at NTNU in Ålesund - Pitch session		
15:00	Hans Petter Hildre	Møre Ocean Lab - Ocean research at NTNU in Ålesund
15:15	Karl Henning Halse	Simulation of critical marine operations, SFI Move
15:30	Houxian Zhang	Digital Twins Ship, the Gunnerus Case
15:45	Vilmar Æsøy	Data analytics for decision support – machine learning
15:50	Oceans Talks – Wrap-up	
16:00h-19h	Activities in common Tour around simulators, Food, Pitch session for student companies etc.
