

Data handling policy for 23rd International Radiocarbon Conference, Trondheim, 2018

With your signature at the conference registration, you agree to the following use of your data handled by the conference organization:

- Your name and email address can be used for advertisement of future events related to Radiocarbon research or related research fields, e.g. future conferences. This includes handing over contact information to the organizers of these events.
- Your name on the participant list, including affiliation and country of origin, can be used in reports and promoting activity about or by the organizing laboratory or university.
- Photos taken throughout the conference can be used in reports, dissemination and promoting activity about or by the organizing laboratory and university.

If you do not agree with the usage of your photo or name for these purposes, you can mark the corresponding checkmarks at the registration.

Attendance list for 23rd International Radiocarbon Conference, Trondheim, 2018

With signing, you confirm your attendance at the conference and your agreement with the data handling policy unless you **check the boxes to refuse usage of photos or your name.**

Surname	First name	Social I/M/F/V	Workshop	Signature	Photo	Name
Nordmann	Ola	1/0/0/1			<input type="checkbox"/>	<input type="checkbox"/>

In any case, your contact information will be used for sending information directly concerning the Radiocarbon 2018 conference, e.g. information about the conference proceedings.
