

Go STEM! - enhancing the quality of teaching and learning in technically oriented universities

'Education' Programme

The Education Programme funded by the European Economic Area (EEA) in 2014-2021

Component I

Professional staff development - Study visits

Nr: EOG/21/K1/D1/W/0033

Partners: AGH University of Science and Technology and NTNU Norwegian University of Science and Technology

Realisation: 01.02-31.07.2022

Go STEM! - enhancing the quality of teaching and learning in technically oriented universities benefits from a grant of PLN 33,718.72 from the EEA funds. The aim of the project is to gain knowledge about strategies, didactic methods and experience in STEM teaching, exchange information and best practices in the field of education, and create a room for further development and cooperation between the AGH University of Science and Technology, and NTNU Norwegian University of Science and Technology.

Working together for an inclusive Europe.

The EEA Funds represent the contribution of Iceland, Liechtenstein and Norway to creating a green, competitive and inclusive Europe. There are two overall objectives: to reduce economic and social inequalities in Europe and to strengthen bilateral relations between the Donor States and the 15 EU countries of Central and Southern Europe and the Baltic Sea area. The three Donor States work closely with the EU under the Agreement on the European Economic Area (EEA). The donors have provided €3.3 billion in successive fund programmes between 1994 and 2014. The EEA funds for 2014-2021 amount to €1.55 billion. Priorities for this period are:

- #1 innovation, research, education and competitiveness;
- #2 social inclusion, youth employment and poverty reduction;
- #3 environment, energy, climate change and low-carbon economy;
- #4 culture, civil society, good governance and fundamental rights;
- #5 Justice and Home Affairs.

The EEA Funds are jointly funded by Iceland, Liechtenstein and Norway, whose contribution is based on their GDP. Eligibility for the funds is based on meeting the criteria set out under the EU Cohesion Fund designed for Member States with a gross domestic income per capita below 90% of the EU average.
