

# Announcement and Call for Abstracts

## ECAT 2020

International Symposium on Electrocatalysis

**Trondheim, Norway, 9-11 June 2020**

**International Symposium on Electrocatalysis 2020**

- Advancing Renewable Energy for Clean Environment

### Symposium Objectives

ECAT2020 is an international symposium on electrocatalysis that aims to bring together scientists and engineers that are active in various topics related to the application of electrocatalysis in clean and environmentally friendly electrochemical technologies.

### Venue

The conference will be held in Trondheim, Norway on June 9-11, 2020. Trondheim is the technology capital in Norway, hosting the largest university in Norway. Norway has a large electrochemical industry and research, primarily due to excess renewable hydro power.

### Topics

**Electrocatalysis**

**Photoelectrocatalysis**

**Sonoelectrocatalysis**

The symposium invites you to submit abstract in all areas of electrocatalysis, including **hydrogen** and **direct alcohol fuel cells**, **water electrolysis**, **batteries**, **carbon dioxide reduction**, **nitrogen reduction**, **valorization of compounds**, and any other topics related to the application of electrocatalysis in clean and environmentally friendly electrochemical technologies.

### Abstract Submission

The submissions to the conference should be a 500-word maximum, **not exceeding ONE PAGE** of text, references, tables and figures. Abstracts should be sent as attachments to [ecat2020@ntnu.no](mailto:ecat2020@ntnu.no) using email subject line: "Submission to ECAT2020". NB! The abstract submission does not register you for the conference. All submissions will be either oral or poster presentations.

### Important Dates

Submission of Abstract	February 1, 2020 – April 1, 2020
Notification to Authors	April 17, 2020
Registration Deadline	April 29, 2020

### Registration Fees

Regular:	NOK 5,000
Students and Postdocs:	NOK 4,000

## **Conference Chairs**

Frode Seland, Svein Sunde and Bruno G. Pollet

## **International Steering Committee**

Christophe Coutanceau, University of Poitiers, France

Michael Eikerling, Julich Research Center, Germany

Byron Gates, Simon Fraser University, Canada

Gregory Jerkiewicz, Queen's University, Canada

Ludwig Kibler, University of Ulm, Germany

Cobus Kriek, North-West University, South Africa

Pawel Kulesza, Warsaw University, Poland

Shigenori Mitsushima, Yokohama National University, Japan

Germano Tremiliosi-Filho, University of Sao Paulo, Brazil

## **Local Organizing Committee**

Frode Seland (NTNU)

Svein Sunde (NTNU)

Bruno G. Pollet (NTNU)

Debbie Koreman van den Bergh (NTNU)

Anne Lise Berg (NTNU)
