

Call for Papers

27th Nordic Insulation Symposium

June 13-15, 2022, NTNU, Trondheim, Norway

SCOPE AND TOPICS

The symposium is an interdisciplinary Nordic forum for open discussion of ideas, research results and practical experience on electrical power insulation. It addresses itself to researchers and engineers working in research institutes, power industry and power supply and is also open for participants from outside the Nordic countries. Contributions from young researchers are particularly welcome.

The preferential subject of the first day of the symposium will be:

Influence of combined voltages on dielectric materials

Invited speaker: Dr. Tord Bengtsson, Hitachi ABB Power Grids, Sweden

Papers outside the preferential subject will be accepted for presentation at the second day of the Symposium. In practice, all subjects from previous Nord-IS sessions will be included, e.g.:

- insulation materials and systems
- ageing and breakdown phenomenon
- measurement and testing techniques
- condition assessment and monitoring
- insulation co-ordination
- modelling and simulation

IMPORTANT DATES:

Submission of abstract:	December 17, 2021
Notification of acceptance to authors:	January 11, 2022
Submission of papers:	March 25, 2022
Notification of acceptance of full paper:	April 22, 2022
Advanced registration:	May 6, 2022
Conference	June 13-14, 2022
Technical tour	June 15, 2022

The abstract should be max 200 words and in Word or pdf format.
