

SCIENTIFIC WRITING WORKSHOP

Claus Roll

PhD in molecular biophysics,
20 years STM publishing experience

Muhammad Nadeem Akram

Professor,
deputy editor of Applied Optics

Get guidance on preparing and writing a scientific article, article structure, selecting the right journal, and addressing ethical considerations in both research and publishing. Learn about the journal editors' expectations for submitted manuscripts, the peer review process, and the author's role within it.

13th of June
Part of the 4th
TNNN Conference
