

We have the pleasure of inviting you to the 2016:

# INDECOL SUMMIT & ALUMNI WEEKEND

3rd-5th of November 2016  
NTNU, Trondheim

Dear all,

The professors of Industrial Ecology, in collaboration with Symbiosis, would like to invite you all to the IndEcol Summit and Alumni Weekend.

The IndEcol Summit will be held for the first time this year and we aim with this to create an arena for researchers and professionals that includes networking and recruitment opportunities. Through this we aim to establish a platform for IndEcol Alumni to meet and discuss challenges and explore synergies.

The program will consist of three different types of sessions in addition to a social program put together by Symbiosis. The program will include a combination of presentations of the latest research (research sessions) in our fields, experiences from IE applications in industry and subsequent panel discussions (mixed sessions). We are also introducing an IndEcol Market place (career sessions) where all alumni will be invited to have stands and posters presenting their company and use this as a recruiting platform.

Further information regarding registration and a more detailed program will follow shortly.

We sincerely look forward to seeing you in November.

Best regards,  
Anders H. Strømman  
Director NTNU, Industrial Ecology

# PROGRAM

This year we have organized the program into three different types of sessions:

## MIXED SESSIONS

Sessions designed to focus on the path from research to practice within thematic areas

## CAREER SESSIONS

Sessions which focus on the utilization of the Industrial Ecology toolbox

## RESEARCH SESSIONS

Sessions which focus on giving you an update of current research in the field of Industrial Ecology
