

Call attentions to all EMLab users

(Sorry, as OpenLab it is hard to know Wrongdoings by WHO, and it has to be emphasized again to all users)

NOT allow to use any instrument if without Advance Booking!

All samples must be cleaned and the new mounted epoxy samples must be overnight degassed before SEM
For all stuffs inside the Lab area, Users just get permission to use, please do not modify them or for your convenience to bring with. So far we still lost one important sample holder, which was taken away by someone and forgot return forever!

For the necessary modification, you need get permission from the Lab staffs first!

Inside all the instrument rooms, no food or drink is allowed! Tidy up the sample box and table after using.
