Woodway PPS Med

TRAINING

Advanced equipment to use, and it requires a lot of practice to perform and understand the testing and interpretation of the results.

- Observe 5 tests done by a NeXt Move engineer.
- Perform 5 tests under supervision of a NeXt Move engineer.
- In consultation with a NeXt Move engineer and your supervisor, you will be approved for testing on your own.

The equipment is quite easy to use and training for successful performance takes about 4-6 hours.

The equipment is easy to use and training for successful performance takes a minimum of 2 hours.
